NOTES

1. Traffic is only published for a country, or for point-to-point, if the annual total exceeds 9,500 (scheduled and charter together). Exceptionally in the case of London, all scheduled traffic is shown, regardless of amount (charter-only routes remaining subject to a minimum of 9,500 passengers per annum). In the case of the USA, all scheduled traffic is shown, regardless of the amount, to or from gateway points specified in the Bermuda II Agreement and subsequent amendments.
2. These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operators are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.
3. Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, i.e. the aircraft's origin or ultimate destination. This has been the practice since 1 August 1976 - before this date missing information was replaced by estimates made by the Authority. The figures in this table include all passengers carried on scheduled and chartered services excluding those carried on aircraft chartered by Government Departments.
4. A total alongside a country without any sector traffic shown indicates traffic to/from London only.
5. For the purposes of this table, change of gauge passengers (except those carried by Pan-American over London to/from Germany) are treated as transit and are excluded.
6. Excludes passengers at Carlisle, Dundee, Londonderry, Plymouth, Southend and Westland Heliport.

Appendix Definitions - UK Airport Statistics

There are some differences between the definitions used in this publication and those used in "UK Airlines-monthly operating and traffic statistics". These arise mainly because UK Airlines are not asked to report non-revenue passengers or non-revenue cargo.

MOVEMENTS

Aircraft movement An aircraft take-off or landing at an airport. For airport traffic purposes one arrival and one departure are counted as two movements.

Commercial Movements

Air transport movements are landings or take-offs of aircraft engaged on the transport of passengers or cargo on commercial terms. All scheduled service movements, whether loaded or empty and charter movements transporting passengers or cargo and air taxi movements are included. For the purpose of these statistics where flights are operated on a sub charter basis the operator is identified according to the flight number.

Empty positioning movements are movements by scheduled or chartered aircraft moving into position for transport flights or returning to base after such flights, including empty Air Taxi Movements.

Local movements are commercial flights undertaken for public entertainment purposes ie joyflights, press, survey or agricultural flying.

Non commercial Movements

Test and training movements are movements for the purpose of testing aircraft or airport facilities, or for training flying crew or ground personnel. Also included in this category are demonstration flights by makers or sellers of aircraft and aviation equipment. Aero-club instructional flights are not included in this category.

Other non-commercial movements are non-revenue earning movements by air transport operators or manufactures for the sole purpose of moving their own personnel or stores from one place to another, for delivery, refuelling or maintenance of empty aircraft, and air transport flights forced to return to base by bad weather, engine failure or other causes.

Private movements are movements for purely non-commercial purposes by private owners or other private aircraft operators, excluding aero-clubs movements. (See below)

Aero-club movements are movements operated by aero-club members for instruction or pleasure.

Official movements are movements for official purposes by British or foreign civil Government Departments excluding air transport movements e.g. movements by aircraft of the Queen's Flight.

Military movements are movements exclusively for military purposes utilising military aircraft. Military movements at military airfields are not including in these statistics.

PASSENGERS

Passengers All revenue and non-revenue passengers on air transport movement flights.

A terminal passenger is a passenger joining or leaving an aircraft at the reporting airport. A passenger travelling between two reporting airports is counted twice, once at each airport. A passenger who changes from one aircraft to another, carrying the same flight number (change of gauge) is treated as a terminal passenger, as is an interlining passenger.

A transit passenger is a passenger who arrives at and departs from a reporting airport on the same aircraft which is transitting the airport. Each transit passenger is counted once only and not once on arrival and once on departure.

CARGO

Cargo Is the weight of property carried on an aircraft including for example, the weight of vehicles, excess baggage and diplomatic bags, but excluding mail and passengers' and crews' permitted baggage. When related to the activity at an airport it is usual to measure cargo as uplifted and set down. Cargo in transit through the airport on the same aircraft is excluded as is mail, company stores, excess baggage, diplomatic bags and passengers' and crews' permitted baggage.

TYPES OF SERVICES

International services are services flown between the United Kingdom, Isle of Man, Channel Islands and places outside.

Domestic services are services flown entirely within the United Kingdom, Isle of Man and Channel Islands.

Cabotage here includes traffic carried between territories of the United Kingdom, Isle of Man and Channel Islands other than domestic services. (For the purposes of these statistics cabotage is shown under International Services.)

Scheduled services are those performed according to a published timetable, including those supplementary thereto, available for use by members of the public.

Non-scheduled or charter services include all air transport movements other than scheduled services.
