Manuel de Maintenance de Ballons Libert, édition 3, version du 23/03/2008, et révisions ultérieures acceptées par l'EASA

V. Notes

V. Notes

1. On envelopes manufactured prior to 1 January 2007 (until and including S/N 312-036) the parachute is operated by a red control line, the rapid deflation system by a white control line and the turning vents by two control lines of different colour being blue, yellow, green or black without distinction in view of the sense of rotation.
Sur les enveloppes produites avant le 1 janvier 2007 (jusqu'au S/N 312-036 inclus), le parachute est actionné par une corde de manœuvre rouge, le système de dégonflement rapide par une corde de manœuvre blanche et les vantaux de rotation par deux cordes de manœuvre de couleurs différentes pouvant être bleue, jaune, verte ou noire sans distinction par rapport au sens de rotation.
