Notes

(1) These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operators are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.

(2) Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, i.e. the aircraft's origin or ultimate destination. In the case of the USA, all traffic is recorded to or from gateway points specified in the Bermuda II agreement and subsequent amendments until March 2008, when this agreement will no longer be in force. The figures in this table include all passengers carried on scheduled and chartered services excluding those carried on aircraft chartered by Government Departments.

(3) For the purposes of this table, change of gauge passengers are treated as terminal and are included.

(4) Excludes passengers at Barrow, Carlisle, Isles of Scilly (St Mary's), Metro London Heliport, Shoreham.

(5) In order to preserve market analysis all identifiable diversions are reallocated to the point of intended operation.

(6) Charter operations performed on an aircraft of less than 25 seats are not included.

(7) Excludes passengers on airlines that we do not have consent to publish.
