1. Introduction

1.1 During January 2013 the Directorate of Airspace Policy (DAP) advised that the establishment of an Aerodrome Traffic Zone at Lee-on-Solent had been approved (Civil Aviation Authority Information Notice IN-2013/016). DAP advised that the ATZ would be established as and when the Aerodrome becomes licensed; that remains the case. However, aerodrome infrastructure work associated the site securing CAA-licensed status has been more protracted than was anticipated and is now expected to conclude during Autumn/Winter 2013. It follows that it is now anticipated that the Lee-on-Solent ATZ will be established during late 2013.

2. Scope

2.1 As previously indicated, the ATZ will have a 2nm radius centred on 504856.65N 0011223.55W and extend vertically from the surface to 2000ft above aerodrome level. The ATZ will be active Monday – Friday (Summer 0800-1600Z, Winter 0900-1700Z) and weekends (Summer 0800-1700Z, Winter 0900-1700). ATZ activation will be supported throughout by an Air / Ground operation (118.925 Mhz). There will be no associated change in airspace classification, which will remain Class G.
