

# Application for MOR Data Release

This form can be filled in on screen (preferred method) then printed, signed and submitted as instructed. Alternatively, print, then complete in BLOCK CAPITALS using black or dark blue ink

UK Regulation [376/2014](#) on the reporting, analysis and follow-up of occurrences in civil aviation aims to improve aviation safety by ensuring that relevant safety information relating to civil aviation is reported, collected, stored, protected, exchanged, disseminated and analysed. The information collected should be adequately protected from unauthorised use or disclosure. It should be used strictly for the purpose of maintaining or improving aviation safety and should not be used to attribute blame or liability.

Article 15(2) of the Regulation states that information derived from occurrence reports shall be used only for the purpose for which it has been collected. Member States, the Agency (CAA) and organisations shall not make available or use the information on occurrences in order to attribute blame or liability; or for any purpose other than the maintenance or improvement of aviation safety.

If you wish to have access to the information described above for the purpose of the maintenance or improvement of aviation safety, please explain what data you would like and how you would use it for safety purposes by completing all sections of the form overleaf. Additional supporting information may be attached to your application if there is insufficient space on the form.
