NATS Departure Route Proposal at London Stansted Airport - Consultation
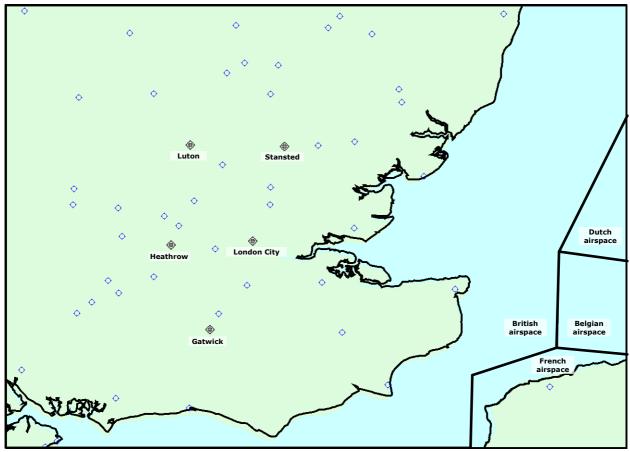

Appendix E: Background on London area flight paths (built up by airport)

This is the background map showing the major London airports and the national airspace boundaries.

The six charts on the following pages add flightpaths for one airport at a time, colour coded, in this order:

Heathrow arrivals **light blue**, departures **dark blue**

Gatwick arrivals **light red**, departures **dark red**

Stansted arrivals **light green**, departures **dark green**

Luton arrivals **magenta**, departures **purple**

London City arrivals **light orange**, departures **brown**
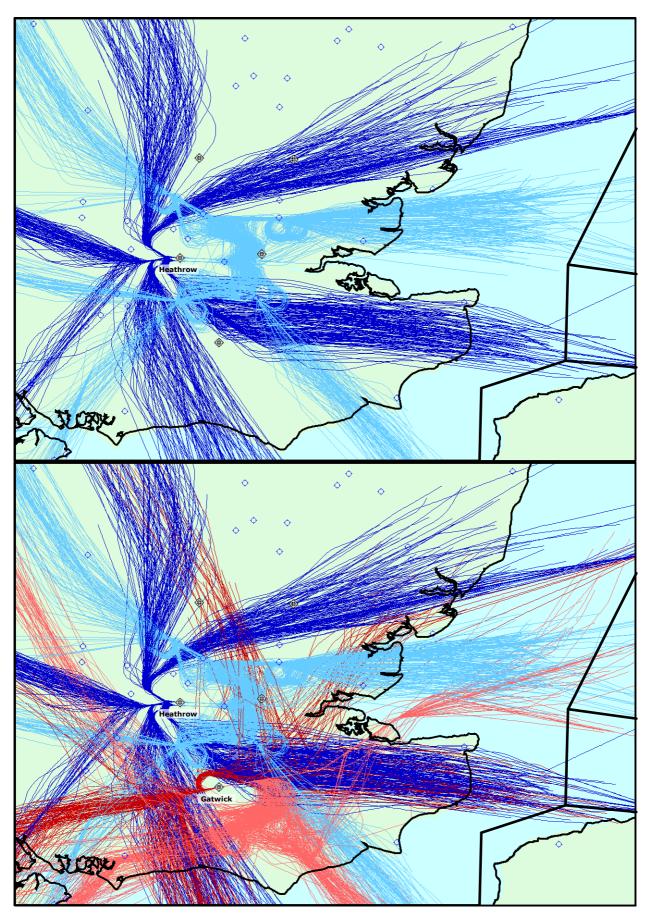

All other flights in **dark grey**

The radar data shows the 24 hour period of 5th August 2011, and only shows flights up to 25,000ft. Westerly runways were in use at all five airports.
