1	Feb-16	8.2016	08/02/2016	E10	Waltham Forest	I appreciate I am utterly powerless to change either the paths or policy, but would like to register a noise complaint against city airport, with a note to yourselves, that flight noise once again has not also eroded the quality of people's lives living under new paths, but also peoples trust in City airport's ability manage their responsibilities.
2	Feb-16	9.2016	09/02/2016	E10	Waltham Forest	New "concentrated flight paths" have come into effect and effect us
3	Feb-16	11.2016	18/02/2016	IG9	Essex	The noise is making our lives unpleasant, and is coming over a very narrow corridor right over our house.
4	Feb-16	13.2016	18/02/2016	E17	Waltham Forest	I have been woken up every day this week at 6am and have had very early starts for the last while thanks to the new flight path coming over East London. I'm so upset and very tired all the time now. I have only been living here for six months after having to sell my previous flat due to noise issues. I opted for the quiet life in Walthamstow. And now your throwing planes at me at 6am. I do question why I've heard nothing from you in regards to these new changes and I would like to know that this extra noise at this stupid hour in the morning will not persist? Looking forward to your response, Daniel Egerton
5	Feb-16	15.2016	23/02/2016	E11	Waltham Forest	I am writing to express my concern at the dramatic escalation in aircraft noise that has occurred in the last few weeks in Leytonstone. It is making my life – and people in Leytonstone – a misery as there is a constant stream of low aircraft over our houses. And it is concerning that this is in winter when windows are closed – in summer it will be even worse and will make sitting in the garden intolerable. Please will you address this issue as soon as possible, it really is unfair to cause so much suffering to the people of Leytonstone – the vast majority of which do not even use City Airport.
6	Feb-16	16.2016	29/02/2016	SW9	Lambeth	It is outrageous that you have allowed the concentration of your flight paths over my property when I am also subject to being overflown by airplanes landing at Heathrow airport. Perhaps you could let me know how you notified me of the consultation you ran prior to concentrating your flight paths, as I do not remember being contacted by you in any way.
