

## COMMENT RESPONSE DOCUMENT

CAA PAD No. 1982

Published on 27 July 2021 and officially closed for comments on 24 August 2021

### Commenter 1: EASA

#### Comment # 1

Under the section covering “Superseding AD”, the PAD includes references to the previously superseded AD’s - EASA AD 2012-0178 dated 7 September 2012, EASA AD 2012-0184 dated 12 September 2012, as well as the immediately previous active EASA AD 2013-0207 dated 9 September 2013.

The commenter suggests that including all of the historically superseded ADs, the list could be simplified to cover the last active AD i.e. “This AD supersedes EASA AD 2013-0207 dated 9 September 2013”

#### CAA response:

**CAA agrees with the comment, i.e. that more information than necessary has been included in the section covering “Superseding AD” and should be simplified to refer to the previously active AD only. The finally published AD has been revised to reflect this.**
